            <h2 class="section-title">About</h2>

            <p class="about__text1">
```

I am a Full Stack Developer on websites and mobile applications, with 4+ years of part-time work experience in the development domain. My objective is to help companies

application that will be more secure and sustainable and will be able to work for years. It is not only sustainable, but it is also able to meet the needs of clients all around the world.

```
<br><br>
```
I hold a Bachelor's degree in Computer Science Engineering. My major interest revolves around developing, analysing, and securing Web/Mobile applications and infrastructure to make products and environments more robust and secure.

My day begins with starting researching various areas of technologies and also finding developing technologies in applications that can cause a huge impact, which is on trend. I love to participate in various competitions like these, like solving problems ,code debugging, and testing. I always look to grow my skill-sets to keep myself up-to-date on relevant technologies.

I am looking forward to working in an organisation where I can contribute my creative methodologies and out-of-the-box thinking and be a team player. I have good experience in problem-solving and project development. I am always ready to support and mentor people in the best way I can.

However, not only in technology but also in communication, so I learned foreign languages like Spanish and French.

```
